Re: Letter of Appreciation

The National Unity and Reconciliation Commission [NURC] is entrusted with the mandate to foster unity and reconciliation among Rwandans, and having witnessed unity and reconciliation competitions, which you organized in Primary Schools, wish to extend my sincere appreciation for the noble activity well done of inculcating culture of reconciliation among the children through the program activities.

There is no doubt on part of NURC that this program has had great impact on the teachers and the children in the schools. The child's practising of reading, designing, writing and comprehension in reconciliation efforts; is effective in building the above mentioned culture as well as learning skills.

NURC strongly believes in the program and wish that it could be carried out in all the schools in our country. I pledge NURC continued support for the above best practices and wish you the best in grooming the future Rwanda.

I appreciate the great support you received from the Bible Society of Australia and wish them to keep it up, as it is contributing to lasting peace in our country.

With deep appreciation

Madam Fatuma NDANGIZA
Executive Secretary.
